

CL00: Career Learning and Outstanding Opportunities

Investor Pitch Deck

1. Introduction

CL00 (Career Learning and Outstanding Opportunities) is an education and career development platform that bridges the gap between school education, skill-based training, and industry needs. We aim to equip students with the knowledge, skills, and industry connections they need to excel in their careers.

2. Problem Statement

- School Level: Traditional education systems often fail to provide the holistic knowledge and technical skills required for future career paths.-

Post-12th Transition: Students are confused about their career choices after 12th grade and lack proper guidance for selecting a relevant path.-

Engineering and Technical Students: The mismatch between industry expectations and the skills that students acquire in engineering institutions creates a barrier to employment.-

Industry: MSMEs struggle to find skilled individuals for specific tasks, creating inefficiencies and limiting growth.

3. CL00's Solution

Section 1: GeniusGrid Vidhyapeeth (School Level Education)

- Target Audience: Students from Grade 8 to Grade 12-

Offerings:

- Daily tuition classes on core subjects.
- Government exam preparation (e.g., UPSC, SSC).
- Spiritual knowledge lectures for value-based growth.
- Latest technical courses essential for school students, including coding, AI, and emerging technologies.
- Student-to-Student Connection: A community feature to foster peer learning and collaboration.
- Weekly Webinars: Value-based sessions to provide holistic development.

Objective: To provide a balanced education that includes academics, technical skills, and value-based learning.

Section 2: BuiltUp (Skill-Based Engineering Education)

- Target Audience: Engineering students- Offerings:

- Study materials tailored to current market needs.
- Skill-based training programs that focus on practical, in-demand skills.
- A dedicated counseling cell offering personalized guidance for students transitioning between 12th grade and engineering.

- Industry-focused training programs to match student skills with industry requirements.
- Industry Placement: Ensuring students are well-prepared for job placement by focusing on the practical skills that industries demand.

Objective: To bridge the gap between students and industries by offering the education and skills that align with real-world job demands.

Section 3: Industry Portal

- Target Audience: MSME industries and skilled individuals-

Offerings:

- A platform where MSME industries can post small tasks or projects.
 - Students or skilled individuals can take up these tasks, providing industries with flexible, cost-effective solutions.
 - Payment integration to ensure that tasks are remunerated fairly.
- Objective: To provide MSME industries with access to a skilled labor force, while offering students real-world experience and income opportunities.

4. Market Opportunity

- The Indian education market is projected to reach \$225 billion by 2025.
- There is a growing demand for skill-based education, especially in engineering and technical fields.
- MSME industries contribute significantly to the Indian economy and are in need of skilled individuals for short-term tasks, making CLOO's platform a perfect fit for both students and industries.

5. Competitive Advantage

- Holistic Approach: Unlike other educational platforms, CLOO offers a seamless journey from school to industry, with a focus on technical skills, moral values, and real-world industry placements.
- Industry Tie-ups: Strong partnerships with MSME industries ensure students gain real-world experience and industry exposure.
- Expert Guidance: Our network of professionals and counselors provides personalized guidance, which is rare in the traditional education system.

6. Traction

- GeniusGrid Vidhyapeeth: Launched successfully with active users in school education and government exam preparation.
- BuiltUp: We have established partnerships with engineering institutes and industries to offer skill-based education and placement.
- Industry Portal: Early traction from MSME industries that have started posting tasks and recruiting students.

7. Conclusion

CLOO is uniquely positioned to revolutionize the education and skill-training ecosystem in India. By providing school students, engineering students, and MSME industries with the right tools and opportunities, we are creating a future where education and industry are closely aligned. We invite you to be a part of this exciting journey and help shape the next generation of skilled professionals.
